

# DRAGON GRIPS PRECISION TRACKS

The precision tracks, made and designed by Guy, are a new concept in tracking. It diversifies the shot and can give the Director or DOP flexibility and more imaginative abilities to accomplish the shot.

Our tracks can be used both with crane or dolly...they come in standard sizes of 6 meters (20 feet), 3 meters (10 feet) or 1.5 meters (5 feet) lengths...sizes in between are also available. The ease of leveling saves a lot of time. One type of track does it all!

The bonus is that there are no cross pieces. Therefore, you can use the tracks in multitude of widths, benefiting the actor walking down the middle without a thought of having to step over cross pieces. It also makes for easy pushing, smoother ride (due to less joiners) and lightweight.

## PRICE

US\$1,642 For A Set of 6 Meter Length  
US\$1,290 For A Set of 3 Meter Length  
US\$1,115 For A Set of 1.5 Meter Length  
US\$595 Spreader, each

Patent Pending
