

DRAGON GRIPS

SIR WILLIAMS SLIDE & GLIDE

We call this apparatus the Sir Williams Slide & Glide...as genius as the Original Dragon Slide & Glide.

The Slide & Glide makes a small dolly move possible without a dolly. It allows the camera to have just that little freedom to move across on a long lens shot, if necessary. The Sir Williams S & G, has all the other benefits of the Original S & G. However...

The benefits of the Sir Williams Slide & Glide are: it's very light in weight and its ability to break apart into smaller pieces.

If you have creativity, you can utilize the Slide and Glide in so many various ways. It's a very versatile piece of equipment.

With the Sir Williams Slide & Glide you have the option of legs manufactured specifically for it.
